

# Curriculum Vitae

October 2, 2024

## Tomoyuki Nakagawa

Associate Professor

School of Data Science, Meisei University

2-1-1 Hodokubo Tachikawa-city Tokyo, 191-8506, Japan

E-mail Address (Primary): [tomoyuki.nakagawa \[at\] meisei-u.ac.jp](mailto:tomoyuki.nakagawa@meisei-u.ac.jp)

E-mail Address (Second): [t\\_nakagawa \[at\] rs.tus.ac.jp](mailto:t_nakagawa@rs.tus.ac.jp)

URL: <https://nakagawa96.github.io/TomoyukiNakagawa.github.io/>

ORCID: <https://orcid.org/0000-0001-5057-5927>

Mathematics Genealogy: <https://www.mathgenealogy.org/id.php?id=282439>

## Current Position

Associate Professor at School of Data Science, Meisei University

Visiting Associate Professor at Tokyo University of Science

Visiting researcher at Statistical Mathematics Unit, RIKEN Center for Brain Science

## Areas of Specialisation

Mathematical Statistics; Discriminant analysis; High-dimensional data analysis;  
Robust statistics; Bayesian analysis; Contingency tables; Spatio-Temporal analysis

## Education

- Ph.D (Science): 2015.4–2018.3  
Department of Mathematics, Graduate School of Science, Hiroshima University.
- M.A. (Science): 2013.4–2015.3  
Department of Mathematics, Graduate school of Science, Hiroshima University.
- B.A. (Science): 2009.4–2013.3  
Department of Mathematics, Faculty of Science, Hiroshima University.
- Moji Daishoukan High School, 2006.4–2009.3.

## Employments

- Associate Professor: 2023.4–present  
School of Data Science, Meisei University.
- Visiting Researcher: 2024.7–present  
Statistical Mathematics Unit, RIKEN Center for Brain Science.
- Visiting Associate Professor: 2023.4–present  
Department of Information Sciences, Tokyo University of Science.

- Visiting Associate Professor: 2023.4–present  
Statistical Science Research Division, Tokyo University of Science.
- Visiting Associate Professor: 2023.6–present  
Medical Data Sciences, Tokyo University of Science.
- Junior Associate Professor: 2022.4–2023.3  
Department of Information Sciences, Tokyo University of Science.
- Member: 2022.4–2023.3  
Medical Data Sciences, Tokyo University of Science.
- Member: 2020.4–2023.3  
Statistical Science Research Division, Tokyo University of Science.
- Assistant Professor: 2018.4–2022.3  
Department of Information Sciences, Tokyo University of Science.
- Part-time Lecturer: 2015.4–2018.3  
Faculty of Engineering, Kindai University.

## Grants

- Principal Investigator: 2023.4.1–2027.3.31  
Grant-in-Aid for Early-Career Scientists
- Principal Investigator: 2019.4.1–2023.3.31  
Grant-in-Aid for Early-Career Scientists
- Co-Investigator: 2021.4.1–2025.3.31  
Grant-in-Aid for Scientific Research (B)
- Co-Investigator: 2020.4.1–2025.3.31  
Grant-in-Aid for Scientific Research (C)

## Awards

- JSAS Best Poster Award, 2021.5.15

## Research Abroad

- Visiting Researcher (Mentor: Prof. Samuel Subbey and Prof. Hiroko K. Solvang)  
Project: MarPro-PROVEN (project nr. 14412)  
Institute of Marine Research, 2017.8.20–2017.9.30

## Membership

- Japan Statistical Society, 2014.5.26–present.
- The mathematical Society of Japan, 2016.10.1–present.
- Japanese Society of Applied Statistics, 2019.4.1–present.
- American Mathematical Society Reviewer for Mathematical Reviews, 2022.3.10–present.
- Japanese Society of Computational Statistics, 2022.4.1–present.

## Publications

● Published and Accepted Papers (Peer-reviewed)

1. K. Nakamura, T. Nakagawa and K. Tahata (2024), Symmetry of Square Contingency Tables Using Simplicial Geometry. *Austrian Journal of Statistics*, **53**, No.4, 85–98.  
(DOI: <https://doi.org/10.17713/ajs.v53i4.1845>)
2. W. Urasaki, Y. Wada, T. Nakagawa, K. Tahata and S. Tomizawa (2024), Geometric Mean Type of Proportional Reduction in Variation Measure for Two-Way Contingency Tables. *Sankhya B*, **86**, 139–163.  
(DOI: <https://doi.org/10.1007/s13571-023-00320-w>)
3. T. Momozaki, K. Cho, T. Nakagawa and S. Tomizawa (2024), Improving the accuracy of estimating indexes in contingency tables using Bayesian estimators. *Journal of Statistical Theory and Practice*, **18**, Article number: 1.  
(DOI: <https://doi.org/10.1007/s42519-023-00353-4>)
4. S. Kimura, K. Ohata, H. Iihara, S. Nishioka, R. Ozeki, M. Saito, T. Nakagawa, M. Komoda (2023), Study on the development and implementation of electronic patient reported outcome-pharmaceutical management system for enhanced CINV control, *Japanese Journal of Drug Informatics*, Vol. **25**, No. 3, 131–142. (in Japanese)  
(DOI: <https://doi.org/10.11256/jjdi.25.131>)
5. W. Urasaki, T. Nakagawa, T. Momozaki and S. Tomizawa (2023), Generalized Cramér’s coefficient via  $f$ -divergence for contingency tables. *Advances in Data Analysis and Classification*, Published Online.  
(DOI: <https://doi.org/10.1007/s11634-023-00560-8>)
6. M. Hyodo, H. Watanabe, S. Nakagawa and T. Nakagawa (2023), Normalizing transformation of Dempster type statistic in high-dimensional settings. *Communications in Statistics–Theory and Methods*, VOL. **52**, NO. 22, 8096–8113.  
(DOI: <https://doi.org/10.1080/03610926.2022.2056749>)
7. S. Sugasawa, T. Nakagawa, H. K. Solvang, S. Subbey and S. Alrabeei (2023), Dynamic Spatio-temporal Zero-inflated Poisson Models for Predicting Capelin Distribution in the Barents Sea. *Japanese Journal of Statistics and Data Science*, Vol. **6**, 1–20.  
(DOI: <https://doi.org/10.1007/s42081-022-00183-x>)
8. T. Momozaki, Y. Wada, T. Nakagawa and S. Tomizawa (2023), Extension of Generalized Proportional Reduction in Variation Measure for Two-Way Contingency Tables. *Behaviormetrika*, Vol. **50**, No.1, 385–398.  
(DOI: <https://doi.org/10.1007/s41237-022-00186-8>)
9. T. Momozaki, T. Nakagawa, K. Iki and S. Tomizawa (2023), An Index for the Degree and Directionality of Asymmetry for Square Contingency Tables with Ordered Categories. *Austrian Journal of Statistics*, Vol. **52**, No.1, 62–71.  
(DOI: <https://doi.org/10.17713/ajs.v52i1.1382>)
10. Y. Saigusa, N. Fukumoto, T. Nakagawa and S. Tomizawa (2022), Measure of departure from conditional partial symmetry for square contingency tables. *Journal of Mathematics and Statistics*, **18**, No.1, 138–142.  
(DOI: <https://doi.org/10.3844/jmssp.2022.138.142>)
11. T. Nakagawa, S. Ohtsuka (2022), An asymptotic expansion for the distribution of Euclidean distance-based discriminant function in Normal populations. *Journal of Statistical Theory and Practice*, **16**, No.4, Article number: 62.  
(DOI: <https://doi.org/10.1007/s42519-022-00292-6>).
